NOTICE and DISCLAIMER:

These projections are purely for illustrative purposes, and are not intended nor do they constitute a guarantee of any kind.

Reimbursement rates are based upon averages.

Reimbursement policies and permitted activities are governed not only by federal agencies but also by the laws and regulations of each state; thus such matters vary widely from state to state and region to region.

Actual revenue realization will depend upon patient demographics, percent of patients screened, and the medical necessity of all procedures as determined by the individual provider.

For an estimate tailored to the specifics of your practice and patient demographics, please click on the customized ROI request link above.
